Building permits totaling \$112,521.77 were issued by the city during the month of April, according to building inspector E. A. Collie.

Annual stockholders meeting of Consumer's Fuel Association and Elevator of Canyon and Ralph Switch will be held Friday night at 7:30 o'clock in the Farm Bureau Building.

Theatre Tickets On Sale

Tickets go on sale this week for the spectacular summer show which will be produced in Pioneer Theater of Palo Duro Canyon State Park.

According to Mrs. Ples Harper, board president of the Texas Panhandle Heritage Foundation, a special advance ticket sale offer is available to Canyon residents during the month of May.

A book of seven tickets, regularly selling for \$6, will be sold for \$5 during May. The book includes five adult tickets, which sell for \$1 apiece, and two children's tickets, worth 50 cents each.

"We think this book of tickets would make a nice graduation present. They would be ideal for families," Mrs. Harper suggested.

Fourteen Canyon High School students helped kick off the advance ticket sales drive in Amarillo Monday. The group travelled to Amarillo aboard the Santa Fe Chief, distributing literature to passengers.

"We were surprised. Out of about 50 persons talked to on the train, only three had ev-

17 Miles Planned For Farm-To-Market

Randall County took the first step toward turning over some 17.5 miles of paved county roads to the State Highway Department Monday.

Clarence Beckman of Precinct 2 agreed to turn over 5 miles of paved road from the end of Farm to Market 1705, now under construction, north to FM 1714. This will be contingent upon needed repairs being made.

Glenn Dowlen of Precinct 3 agreed to turn over 3.5 miles of road running from a point 6.5 miles south of Canyon east to FM 1541.

Commissioner B. R. Jones plans to turn over McCormick Road which is 4 miles in length between the E-Way and FM 1541.

Five miles of City Lake Road in Bill Butler's Precinct 4 will be taken over by the Highway

Department under present plans.

Highway Department officials discussed accepting 3.8 miles of paved road from Umbarger to the Deaf Smith County line.

Meeting with commissioners court Monday were Chili Smith, Highway Department engineer, and Vernon York, senior resident engineer.

If plans materialize the roads listed will become a part of the state farm to market road system and will be placed under state maintenance.

Smith said Randall County has 24 miles of quota left. The state plans to accept maintenance of 4.7 miles of Rim Road and to build 8.5 additional miles of FM road. He noted that if this is done, Randall County will be about 7 miles over quota. He said he does not expect much trouble "selling" the plan at Austin although it might put the county over quota.

In other business, commissioners voted to cancel the plat of a sub division of a portion of the Palisades. Cancellation was requested by the owners.

Plat for Unit No. 6, Pioneer Estates, was approved.

The court voted to purchase an insurance policy of \$63,000 on the contents of the county library. The policy was purchased at a cost of \$290 for a 3-year term from Thompson-King Insurance of Amarillo.

Commissioner Glenn Dowlen reported that it may be possible to form a library district of the portion of Randall County not including South Amarillo without passage of a constitutional amendment. Randall County Criminal District Attorney George Dowlen is checking further the legality of such a district.

Awards Assembly Friday

Annual Awards Assembly at Canyon High School will be held at 2:30 p.m. Friday in the auditorium, according to principal Hobart McDonald.

Jody Sheets, student council president, will be master of ceremonies.

Departmental scholarships will be awarded during the program, and scholarships which are annually presented by various local clubs will also be given.

Outstanding students in each department will be recognized.

"We urge the public to attend the assembly Friday, since all high school awards will be given at that time," McDonald said.

Binning Trial Nears End, Testimony Closes

Testimony in the trial of Mrs. Ella Mae Binning was closed at 12:05 Wednesday and the case was scheduled to go to the jury Wednesday afternoon.

Mrs. Binning is charged in the hammer slaying of her 5-year-old son, Marcus DeWayne, in December of 1963. She has

been in jail since charges were filed.

The 26-year-old mother of six told a Randall County jury she went berserk and blacked out the day the fatal blows were struck.

She said her husband had subjected her to a beating just before she used a hammer on Marcus DeWayne. She said her husband, an airman, arrived home early in the morning and became enraged when he found her playing with the Binning children instead of getting the family car started.

Ironically, she testified that the child whom she is charged with slaying came to her defense during the altercation between his parents.

Marcus DeWayne was pronounced dead upon arrival at

an Amarillo hospital Dec. 14, 1963.

Mrs. Binning testified that she did not understand the warning read to her before she gave a statement to police later that day. In the statement Mrs. Binning admitted having hit Marcus DeWayne on the head with a hammer she had been using to hang some curtains.

"I was mad at him," she said in the statement.

She also admitted having twisted his legs and "he didn't walk after that." The statement said the boy vomited during the night and Mrs. Binning called an ambulance when the child began "losing color" the next afternoon.

Mrs. Binning testified that she was kept at the Amarillo police station and questioned for hours and hours by "oodles and oodles" of policemen.

She testified that she told them, "Yes, I did it. Now leave me alone."

She admitted having taken officers to her home and having helped them find a claw hammer there. She said it was the hammer with which Marcus DeWayne was struck.

Mrs. Binning was four months pregnant at the time.

Rains Add Needed Moisture

"...and the rains beat down." That was the picture Monday when some .80 of an inch of rain drenched Canyon and the surrounding area.

According to John Brazzil, Randall County agent, the rain was general throughout the county, and was beneficial to all crops.

"The rain was a benefit to dry land wheat, although some of the acreage in the county had already been plowed up or grazed," Brazzil explained.

"We do have some good acreage left, and the yield may not be larger, but the grain size should be better due to the rain."

Brazzil also noted that the

Alan Demus, son of Mr. and Mrs. Herman Demus, relaxes for a moment at Canyon High after placing second in state interscholastic League competition in science. Demus took a written test, covering all phases of science, from petroleum refining, as shown here, to osmosis. He was named second place winner in Texas last week end at Austin.

Regents President Selected

Jesse Kellam, Austin television man, was named president of the board of regents of Texas State Teachers Colleges Friday at a meeting of that group held in Austin.

Kellam is a business associate of President Lyndon Johnson and an executive in LBJ Enterprises.

He succeeds Newton Grassham, Houston attorney, as president of the board. He previously had served as vice-president.

Emil Rassman, Midland attorney, was chosen vice-president.

Business transacted by the board concerning West Texas State included approving letting of contract for construction of two buildings on the campus and several routine matters.

Board Signs Option With Local Church

A purchase option for the Calvary Baptist Church and surrounding church property in the 600 block of Fourth Avenue was signed this week by the Randall City-County Library board.

Mrs. T. B. McCarter, president of the board, said the option is for 120 days. Purchase price for all of Block 7 in Heller Addition is \$35,000.

The church has 9200 square feet of floor space. At present the county library is housed in an old barracks building of World War II vintage. It contains an estimated \$63,000 worth of books and equipment.

The library building committee has scheduled a meeting for the latter part of this week to discuss the purchase of the church property.

Plans to hire a library consultant will also be discussed, according to Mrs. Murphy White, chairman of the building committee. The consultant will investigate the possibility of using the church building as a library.

The board will also discuss letting local clubs meet in

by Troy Martin
FROM THE
CANYON RIM

Thanks to the American farmer, the cost of food in man hours spent in earning its price is less now than it was in 1932.

Files of The Canyon News reveal that bacon was selling for 17.5 cents a pound in 1932. A grocer here in Canyon last week advertised bacon at 59 cents a pound.

Even as late as 1940, I did farm labor for 15 cents an hour and was glad to get the job. It took me a little more than an hour to earn a pound of bacon at that rate.

A worker now drawing the minimum wage of \$1.25 an hour can bring home about two pounds of bacon for the same time spent in labor.

We did without a lot of things in the 1930's that are considered necessities now. Also, farm folks produced a great deal of their own food, such as milk and butter, meat and vegetables, on their farms. This practice is not widely followed today.

Farmers tend to "live out of paper sacks" just like us city folks.

The fact remains that we have lived with inflation for the past 30 odd years. When viewed in dollars, the cost of bacon has more than tripled.

Americans, traditionally thrifty, have been faced with the stark futility of saving. Saving has been discouraged by the federal government both through pie in the sky welfare promises as well as by politically induced inflation.

Real victims of inflation have been people who either saved in cash or made investments which did not inflate.

Old folks who may have saved in their youth enough to purchase a bushel of potatoes, today find that the savings of their youth are equivalent to only a peck today.

The first inflation and devaluation of which we can find record was pulled off about 400 BC by Dionysius, tyrant of Syracuse.

Dionysius had borrowed a lot of money from towns people and was hard put for a way to repay it.

He hit upon a fool proof plan. Upon penalty of death he ordered his subjects to bring in their silver drachms.

He took each one-drachm piece and stamped upon it the value of two drachms.

When a man whom he owed 100 drachms brought in 100 drachm pieces, Dionysius stamped them and returned them as 200 drachms declaring that he had returned the amount brought in and also had paid his debt in full.

If a man whom he owed only 50 drachms brought in 100 drachms, Dionysius would return to him 150 of the newly stamped coins and keep 50 for himself. In this way he paid off his debt and realized a profit also.

This amounted to repudiation. This country took a leaf from

politicians.

School districts are being told repeatedly that there is money for them in the federal grab bag. A \$100,000 carrot has been dangled in front of our own school system.

The future is predictable. If the legislature enacts legislation dumping major financing back on the districts, even the most reluctant school boards will feel forced to dip into the federal till.

They will feel forced to do so because state and federal tax programs have dried up most new sources of revenue for local schools and municipalities.

Can anyone doubt that federal money will bring increasing federal control over our school system? I would call attention to a bulletin The Canyon News received this week from the Texas Press Association.

This newspaper was asked to remind the Canyon school board that school districts which have been segregated in the past must prepare a detailed outline of integration plans. The Department of Health, Education and Welfare recommends that notice be published four consecutive weeks in two newspapers having general circulation in the district.

Method of publication in informing all parents must be included in the plan. Proof of publication must be furnished the Department of Health, Education and Welfare.

Failure to comply could result in loss of federal aid which includes the school lunch program.

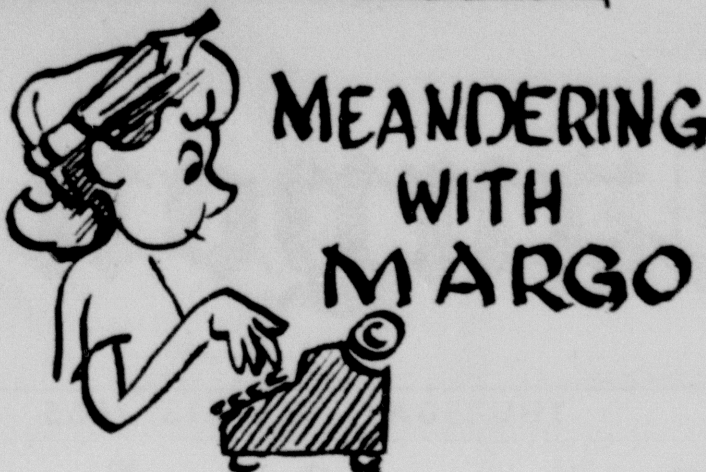

The fact that a school will now accept all eligible children seems not to be enough. The school board must don sack cloth and a hair shirt for what has happened in the past.

When Russell Fowler gets his pig factory going south of town, the term, "Filthy as a hog," may need to be revised.

Fowler plans to produce disease free pigs under sterile conditions.

Soon Canyon mothers may be saying:

"I was so proud of Junior this morning. Without my having to scold him he washed his face as clean as a pig."

The all-embarrassing moment came last week as I went cruising down Fourth Avenue.

I suddenly saw a policeman waving his arm--at me. And I slowly pulled over to the curb and sat there gritting my teeth.

I wasn't angry, just humiliated.

Now getting a ticket isn't so bad in a strange town, with a strange policeman reprimanding you. But in your own hometown, with the policeman calling you by name, and people driving by knowing who you are... Well, it is just too embarrassing.

The worst part of the ordeal is the lack of room for rationalizing. We are notorious for hedging out of a situation, but with a radar unit there just "ain't no way out."

Since the new radar unit has been installed in one of the police cars, traffic has really slowed down on Fourth Avenue and 23rd Street. And I'm glad to see it.

We all become careless, and tend to remain that way unless our carelessness is checked.

And believe me, paying a fine to Corporation Judge D. P. Clark should be enough to check anyone's speed.

City policeman Alan Ratliff was more than kind when he handed me the ticket Friday. He shook his head and said, "Margo, sorry I have to give you this ticket."

I looked at him rather sheepishly, and retorted, "Not half as bad as I hate to take it."

Most Mothers are very cautious with their daughters. They give specific directions concerning the do's and don'ts of talking with strange men,

"Can we give you a ride?"

My sister and I shot our noses in the air and continued talking, trying hard to ignore the boys.

But Mother stopped, walked over to the car, and said, "Thank you boys, but we are just going to the motel."

As they sped away, we all suddenly realized what had been said. Breaking all the rules ever laid down to girls, Mother had spoken to the boys, and had gone so far as to tell them where we were going.

"I didn't think they were trying to pick us up, I thought they were just trying to be nice," Mother quipped. "I guess it was too dark for them to see I was your mother. They must have thought I was just another girl."

I can't help but think that if one of her daughters had suggested the same excuse for talking with strange boys, she just wouldn't believe it.

"Well you are suppose to remember such details. At my age it is hardly necessary to remember the rules of boy-chases girl," Mother noted.

LINDA LOWES, left, accepts the John Philip Sousa Award from Canyon High School band director Gary Zook. Miss Lowes was presented the plaque during the annual band banquet Saturday night. The award is presented annually to the outstanding bandsman in the Canyon band.

Clean-Up Campaign Ends May 15

Today, tomorrow and Saturday--just three days left to join in annual Clean-up, Paint-up, Fix-up week in Canyon.

As of Wednesday, according to Roland Black, Canyon Chamber of Commerce secretary, response to the clean-up drive was not too good.

Handling clean-up jobs during the week-long campaign, which began last Saturday, are three groups of men students from West Texas State.

Working in the drive are Circle K, Phi Delta Theta, and Kappa Alpha Order members.

Canyon residents who are interested in cleaning up their city and around their own homes, from weeding flower beds to moving furniture, are urged to contact Black at the chamber office, OL5-3201.

Black will then notify the individual groups, who will contact the person who called. Final arrangements for jobs to be done will be between the organization and the individual.

Heading the clean-up committee is Dr. Paige Carruth, dean of student life at WTSU. He is assisted by Black.

Proceeds from the clean-up drive will go toward individual organizations.

Annual Industrial Arts Fair Opens Today At WTSU

The Industrial Arts Department of Canyon High School has entered two department projects in the sixth annual Industrial Arts Club Fair being held this week at West Texas State University.

"Our entries are in the technical division," notes Sidney Burgess, instructor.

"One of our entries is a cutaway view showing the working parts of a V-8 engine, and the other is a demonstration of the electrical system of an automobile," Burgess stated. Exhibits from area high

schools go on display at the fair today, Thursday, and will be shown in the Student Union Building through Saturday, May 15.

Sponsored by the Industrial Arts Club of WTSU, the fair will be open to the public daily from 7 a.m. until 10 p.m.

Promotion of interest in Industrial Arts is one of the main purposes of the fair which gives students of junior and senior high schools of the area an opportunity to display their work in open competition. Educational

displays featuring new products will be provided by companies of the area.

Some 758 students participated in the 1964 fair and ranged from throughout several thousand miles representing thousands of students to school eliminations.

Champions will be named and plaques will be given to the person with the best overall entry. The senior student presenting the best project will be awarded a \$100 scholarship to attend West Texas State University.

Judges for the fair will be members of the Industrial Arts Club, which is composed of majors in the Industrial Arts Department at WTSU.

Other coeds vying for cheerleader honors were Carol Ayers of Amarillo, Verna Jo Benson of Sweetwater, Gale Blake of Twitty, Sharon Corica of Dimmitt, Barbara Landrum of Artesia, New Mexico, Linda Jones of Midland, Kelly Morris of Perryton, Shirley Oles of Claude, Wilda Powell of Dimmitt, and Judy Sandlin of Crowell.

Boys running for cheerleader were Allan Chaffin of Grapevine, Max Coursey of Pyote, John Covington of Amarillo, Bill Young of Midland and Dennis Bingham of Seminole.

Canyon High School entries in the West Texas State industrial arts fair today through Saturday include a model of automobile parts, shown at left, and a cutaway version of an automobile engine. Working on final touches for the exhibits are, from left, Don Batenhorst, Wayne Friemel, Jim Williams, Joe Johnson, Danny Malone and Jess Lindsey. S.P. Burgess is instructor for the group, all members of General Shop class in Industrial arts at CHS.

WTSU Names Top Students

Nine School of Business students at West Texas State University have been honored as outstanding in the several fields of business in which majors are offered.

Names of winners, announced at a school banquet, are engraved on plaques on display in the school.

Watches, given by the WTSU Ex-Students, Inc., went to three men in accounting. The advanced accounting award went to John Messenger, Canyon senior; intermediate accounting watch to David Cline, junior, of Hugoton, Kans.; and the elementary award to Bruce Bishop, Amarillo junior.

Outstanding in other fields were Donna Williams of Matarador, business education; Ray

Vaughn of Amarillo, business administration; John Abernathy of Clovis, N.M., finance; Tommy McPhillips of Amarillo, management; Walter R. Garlington of Corsicana, marketing; and Sara Gordon Shackelford of Pampa, secretarial studies.

Accounting awards were based on ratings compiled on a test prepared and graded by the American Institute of Certified Public Accountants in New York City. WTSU students taking the examination ranked in the top two per cent in the nation.

Binning. . .

(Continued from Page 1)

Under cross examination by Randall County Criminal District Attorney George Dowlen, Mrs. Binning denied remembering having hit her son.

Dr. Hugh Penal, Amarillo psychiatrist, said Mrs. Binning has a low intelligence quotient but that she knew abuse of the children was wrong.

He said he did not feel that she "blackened out" for physical reasons but that a primitive mental apparatus can repress or forget quickly.

"Her entire life has been unbelievably sadistic," said Dr. Penal. "She is defenseless in a pressure situation." He said he doubted that Mrs. Binning is able to control her emotions for brief periods under pressure.

"I go wild!" Mrs. Binning had testified earlier.

"The happiest days of her life have been the ones she has spent in jail here," Dr. Penal declared.

First witness presented by the state was Police Captain L.R. Winn, one of the chief interrogators in the case.

Attorney Gene McGlasson, court appointed to defend Mrs. Binning, objected to parts of Winn's testimony dealing with brutality, other than the death blow, alleged to have been dealt to the child.

The jury was out of the room during most of Winn's testimony.

He said Mrs. Binning had told him of hitting Marcus DeWayne on the head. He said she admitted having hit him with a hammer on previous occasions but had never struck him on the head before.

He quoted Mrs. Binning as having said she had placed the child's fingers on a table and then hit them with a hammer.

He quoted her as having said she was trying to "beat the devil out of him."

Winn said he and Police Chief Wiley Alexander accompanied Mrs. Binning to her home and found the death weapon under the kitchen sink.

Judge Jordan denied admission of previous brutality before the jury but reserved the right to reverse the ruling later in the trial.

The hammer and a picture of the Binning kitchen was introduced as state's exhibits.

Mrs. Binning's written statement to police was allowed by Judge Jordan over objection of McGlasson.

The state presented four witnesses, including Chief Wiley Alexander, Winn, Detective Donald Prather and Patrolman Ralph Diaz.

The state was about to place a physician on the stand but did not do so after both sides agreed to accept a stipulation that Marcus DeWayne was killed by a blunt instrument which might have been a hammer.

The state rested its case at 11 o'clock sharp.

Appearing for the defense, C.J. Humphrey, Amarillo attorney, testified that Mrs. Binning had no comprehension of what was going on when he saw her at the hospital the day Marcus DeWayne died. He said her eyes had a "glazed look."

Humphrey said he was at the hospital because his daughter had been hurt in a traffic mishap.

The only other witness to appear for the defense was Mrs. Binning herself. McGlasson rested at 12:05.

Except for a sister and her court-appointed attorney, Mrs. Binning was alone at court. Dressed in black, with her long dark hair neatly combed, Mrs. Binning sat at the table with her attorney.

Occasional exasperation was the only emotion Mrs. Binning evinced throughout the hearing.

Mrs. Binning was taken into custody Dec. 14, 1963 and has been in jail since that time. She gave birth to a baby boy the following May.

All the surviving children, including the infant, were taken by child welfare.

Her husband, Henry, has been discharged from the Air Force and is reported to be living in Louisiana.

Jury for the Binning case was completed late Tuesday from a venire of 108 persons. The jury included three women and nine men.

On the jury were David P. Smiley, Jr., Amarillo; Dean Cook, Canyon; Arduis J. Ward, Amarillo; George H. Pulley, Amarillo; R. A. Wells, Amarillo; Emmett E. Eustace, Amarillo; Marvin L. Klein, Amarillo; Miss Mary Etta Bean, Amarillo; Mrs. Van Coltharp, Amarillo; Mrs. Horace Walker, Amarillo; H. R. Fulton, Jr., Canyon and Sam J. Bell, Amarillo.

Adding to the atmosphere of "circus-time" will be animals of all kinds, including a lion. Clowns are also expected.

Persons of all ages are urged to come out and join the fun, Allen said.

The show will last approximately 1 1/2 hours. Participants include cub packs 31, 34, 66, 131, and 197, and scout troops 66, 97, 108, and 34.

irrigated wheat shows promise due to the rain.

"We have some 25,000-30,000 acres of irrigated wheat in the county, and farmers have been running on a tight irrigation schedule," he explained.

"The rain gave some relief. Farmers won't stop irrigating, but it did relieve the pressure."

The big concern for local ranchers has been the shortage of grassland, according to Brazzil.

"The cattle feed situation has been really tight. But the rain helped green up the ranges, and it will be a tremendous benefit."

"Although the amounts were not big, the moisture was still a help," he concluded.

Canyon's total moisture for the year stands at 4.50 inches, according to M. B. Measamer, geography professor at West Texas State University.

"These plans are still in the talking stage," said Mrs. White. "Nothing definite has been decided, and we are simply investigating possible routes to take."

Students helping in the drive were Keith Stevens, John Harper, Phil Swartzell, Ronnie Wooten, Kenny Crossland, Chuck Hester, Billy Dan Crossland, and Barry Brown.

Others included Sally Nester, Lillian Cowart, Vicki Daniels, Nancy Petruccione, Martha Hughes and Diane Williams.

"Thundering Sounds of The West," the show which will be produced six nights a week all summer, will be directed by Mr. and Mrs. William Moore.

Productions begin June 17, and run nightly, except Tuesdays, through Sept. 6.

"The production will be based on a sound and light show revealing the magnificence of the bluff which the theater faces," Mrs. Harper explained.

"Sounds of the west will be reproduced through very sensitive speakers which are designed to take advantage of the unique acoustics of the location. In addition there will be some western scenes of life in the Canyon during the early days."

Tickets for the show are available through the Texas Panhandle Heritage Foundation office in Canyon or at Morrison's Shamrock Service Station in Canyon.

Alarmed Over Money Issues

Two area businessmen see disaster in quitting silver as a monetary basis in this country.

Fletcher Sims, Jr., of Canyon and Harry Williamson, Amarillo, say history books are full of examples where ruination of countries has been preceded by devaluation of their money.

They pointed to Rome as a prime example. Rome, they said, diluted their silver coins with copper. Eventually other nations lost respect for Roman money.

Williamson said Gresham's law states that "bad money drives out good money."

"That means," he said, "that people will hoard their good money and use the bad money. That's what is happening to silver now. Silver certificates have something behind them. Federal Reserve notes do not."

Williamson quoted a French economist as saying the US should increase the price of gold. He said silver has inflated but gold has not.

Gold still is worth a little more than \$35 an ounce---

WT Graduate School Is CGS Member

The Graduate School of West Texas State University has been admitted to membership in the Council of Graduate Schools of the United States, President James P. Cornette said Tuesday.

"The Council is not an accrediting agency, but membership affords us a frame of reference or a basis for comparison," said Dr. John B. Wilson, dean of the graduate school. Dr. Wilson said requirements for membership include a well-balanced program of graduate work, offered for at least the last three years, and an adequate plan of administration. He said member institutions are encouraged to exchange information as "guidelines," and that membership gives prestige to the graduate programs of universities accepted.

WTSU offers four graduate degrees in 12 different major fields. They are Master of Education, Master of Business Administration, Master of Arts, and Master of Science.

RANDALL CO. ABSTRACT

Canyon Scouts History Vague As To Beginning

Records vary as to the founding date of Boy Scouting in Canyon, from 1919, up until 1929.

According to records from Llano Estacado Council in Amarillo, "Scouting was organized in Canyon Thursday July 19, 1919. Eighteen boys were charter members of the Troop #30. Three of the patrol leaders were Pat Britain, Tracy Service and Marvin Reid. Instead of hikes, all the trips were by horseback, with two or more scouts per horse. Boone McClure was a member of this troop."

The next Scouting news came in fall of 1926 when eight boys in Troop 30 received their Eagle Award. One of these was Joe Boy Hill, who later went with Adm. Byrd to the North Pole.

Dr. J.A. Hill was most instrumental in getting the movement started, and served as first district chairman.

Levi Cole, president of First National Bank, was scoutmaster of Troop #30 for approximately 15 years. After Cole, D.A. Nicholas was scoutmaster.

According to a letter written to Dr. J.A. Hill in 1961 by C.W. West, one of the original troop members, Scouting had its beginning in Canyon in 1926, when troop 1 was organized.

"The actual number carried on the records at the council office and generally used soon after organization was that of Troop 30," the letter says. According to official Scout records, national charter for the troop was received December 17, 1929.

Portions of West's letter follow:

"The troop was organized in the fall of 1926. I entered WT that fall and was presented

Post 66 Began '53

Explorer Post 66 was chartered to First Christian Church, October 31, 1953, with John M. Morris as advisor.

Post committeemen were W. M. Higdon, chairman, J. A. Young, Ray E. Clay, and Pat Britain.

Members of the Post at its original chartering date were Weldon Crim, Benny Cross, John Cross, Richard Dodson, Richard Fleming, Jimmy Flynn, Raymond Haddock, Bill Harrison, Charles Joyner, Jimmy Joyner, Frank Kimbrough, Charles Morris, Billy Partidge, C.G. Pond, Jack Pruett, and Perry Slagle.

Joe Gidden currently serves the Post as advisor.

Roster for the post includes Kenny Crossland, Larry Pitt, George Cox, James Cabe, Mike McBroom, Gary Dooley, Randy Cook, Joe Kerbel, Jody Sheets, Alex deSchweinitz, Kenny Brannum, Craig Bellah, Tommy Higgins, Howard Gidden, Mike Bellah, Scott Downing, Keith Stevens, Phil Swartzell, John Harper, Mark Olson, Stanley Hughes, Neal Hughes, Mark Lair, Ronnie Wooten, Billy Dan Crossland, Tom Lair, Alex Gordon, Barry Brown, Chuck Hester, Tim Myers, Art McAnarney, Tommy Brewer, and Don Roddy.

(with) my Eagle soon after that time, in Amarillo at a regional meeting, it having been earned at Portales, New Mexico, just before I came to Canyon. As a result of the publicity of this event, I was asked to assist in the organization of a troop. I was not old enough to be registered as Scoutmaster, so Irby Carruth was registered in this capacity and I was registered as Junior Assistant Scoutmaster. Ben Mosely assisted me with the troop in its first few months, but withdrew from school before the year was over.

The original eight charter members of the troop passed their Tenderfoot tests in one afternoon and went on to re-

ceive their Eagle badges in the shortest possible time. They were: Lewis Shirley, Joe Boy Hill, Winston Savage, Ernest Cabe, Russell Bishop, James Vaughan, Earl Cobb, and Edgar Laxson.

The troop was sponsored by the Canyon Rotary Club which was very helpful. I remember they bought us about \$100.00 worth of equipment and me a uniform besides helping in many other ways. Mr. Kleinsmith (sic) was one of the most active members. You as president of WT encouraged me and assisted me a great deal. We were loaned the old college Dodge and later the bus many times.

Other Scouts who I remem-

ber are: Reavis Kerr, Neil Downing, Ford Ward, Jack Kilcrease, ? Donnell (Theatre Manager), James Foster, George Bishop, Hosea Foster, Dan Aynesworth, ? Higdon (brother of present Postmaster).

In the fall of 1927 we entered the Tri-State Fair in a number of competitions and won \$87.00 in prizes out of a total of \$100.00. We also won most of the camporees in those days. We went to camp near Claude and were active in all activities of the old Panhandle-Plains Council. . . We assisted in the organization of several troops over the council. I especially remember taking the then Star Scouts who later became Eagles to Bushland to organize Scout-

ing there.

Boone McClure took my place when I graduated and was assisted by Lewis Shirley and Earl Cobb. . .

I shall ever be grateful for the fine co-operation given me by the Rotary Club and by the College through you. The parents were all very understanding and helpful. I tell Scoutmasters now under my supervision that I know all their problems and can appreciate these problems, but more important, I know also all the mistakes that a scoutmaster can make, for I have made all of them.

2 WT Professors Get Doctorates

Two assistant professors at West Texas State University have completed requirements for their doctorates.

They are Wilmer E. MacNair, assistant professor of sociology, and Thomas O. Depperschmidt, assistant professor of economics. MacNair received his Ph.D. from the University of Wisconsin in January, and Depperschmidt will receive his Ph.D. from the University of Texas in May.

MacNair, who is also an ordained minister of the Congregational Church, wrote his dissertation on the meaning and conflict of a denominational merger of Congregational Christian Churches and the Evangelical and Reformed Church.

He taught at Elmhurst College in Illinois for three years before joining the WTSU faculty last fall. A native of New York, he earned the B.A. from Park College, the B.D. from Chicago Theological Seminary, and the M.S. from the University of Wisconsin.

Dpperschmidt, a member of the WTSU faculty since 1961, studied 157 trade union constitutions in preparing his dissertation which dealt with determining where the seat of authority for collective bargaining lay and the legal basis

for centralization of this function in trade unions in this country.

A teaching assistant at the University of Texas from 1958-61, Depperschmidt holds the A. B. degree from Fort Hays Kansas State College.

Scouting Changed Says Scoutmaster

Scouting in the older days was not quite what it is now, according to Levi Cole, who served as scoutmaster of Troop 30 for 15 years.

"Back then, we used to go on hikes on horseback and in Model-T Fords," Cole recalls of

his troop.

"We had access to what is now Canyon City Club, Palo Duro Park, and Camp Don Harrington, the Llano Estacado Council camp."

Eating on hikes was then, as now, important to Boy Scouts, and scouts often took canned food along on their hikes, campouts and cookouts.

"One boy in my troop was especially good at getting more to eat than any other boy, I remember," Cole says. "The only thing he took along in his pack to eat was a #2 can of peaches. Then, after we reached our camp, he'd break out the can of peaches and start trading peach halves for other food. He always wound up with more to eat than any other boy there."

Cole, who took over leadership of the troop in 1931-32, stresses the fact that during his service as scoutmaster, no boys of the troop were in any kind of trouble.

"Many have now gone into government jobs and have achieved high positions in their work," he notes.

"I remember many of my former troop members, including Hudson Prichard, Jr., R. Don Foster, Chris Wooten, Hampton Lisle, Bradford Black, Dean Nicholas, LeeRoy Moreland, Sam D. Burton, Jr., Sam Johnson, Leroy Wooten, and Stuart Condon.

"The boys have all done good," Cole said.

Cole entered the field of Boy Scouting because, as he says, "I wanted to help the community, and they needed somebody."

"The troop was chartered to Rotary Club, and we met anywhere they would let us in. First Methodist Church, Education Building at West Texas, just anywhere," Cole added.

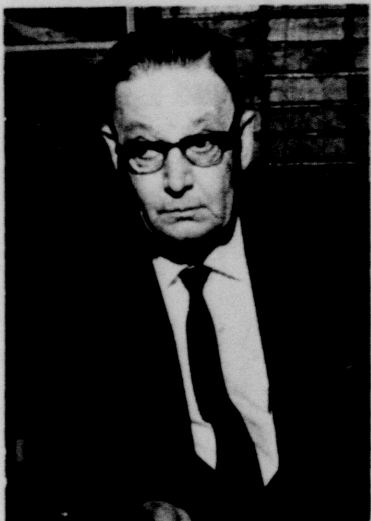

Serving as assistant Scoutmaster for part of the 15 years was Dean A. Nicholas.

"I think the earning of merit badges was probably the most interesting part of Scouting, both for the boys and for myself. We had four or five boys during the fifteen years who completed earning all their merit badges and were advanced

to Eagle rank."

Cole's enthusiasm for Scouting is reflected, even now, as he talks of the boys' trips to swim.

"We got our biggest thrills from swimming at the old indoor pool in the administration building of West Texas State. The boys used to love

LEVI COLE

swimming over there, and everyone always had a wonderful time," Cole recalls.

The days are gone when people can say, "I was a Boy Scout", for now Scouting and its influence reaches into the adult years. Levi Cole is a prime example of the influence Scouting can have on a man.

Driverless Auto Injures 4-Year-Old

Debbie Fay Ward, 4-year-old daughter of Mr. and Mrs. Lawrence Ward, received injuries in a freak automobile mishap last week.

The child was playing in the

family auto with two cousins, when the emergency brake was released, and the driverless car began to roll down the driveway at the home of the child's grandparents, Mr. and Mrs. Archie Davis.

The child apparently jumped from the moving auto and was either struck and drug by the car door or run over the chest by a tire.

"We just don't know what happened for sure," says Mrs. Ward. "The child's uncle, George Caldwell, discovered her unconscious in the driveway and brought her in the house."

"When we couldn't revive her we rushed her to Neblett Hospital in Canyon where doctors urged that we take her to a specialist in Amarillo," Mrs. Ward related.

The child was hospitalized in Northwest Texas Hospital Amarillo for a period of 24 hours and released to her parents.

Early-Day Article Shows Interest In Boy Scouting

Even in its very beginnings, Canyon folks recognized the value Boy Scouting held for their sons, as seen in this article taken from Randall County News, Thursday, July 17, 1919.

B. F. Fronabarger is the author of the article, titled "The Boy Scouts".

"We are growing old when we cease to be able to enter sympathetically the lives of our young people--too old to be of

much use any longer in the world when we can only find fault with them for their "frivolities" and cannot understand nor help them solve their problems. The girl life is now one of the most needy and indeed the most promising field into which our noble hearted women may and must go, and where they must employ heart and head and hand, if they would steer our girls right through

the maze and whirl of this new and a almost startling social, economic and political crisis, through which we must pass.

"But the boy life is peculiarly a problem for men and woe be to our boys and our national welfare if our real men allow the insistent clamorings of other matters to draw them away from this boy life business which if it goes wrong will queer everything else.

"There is now being organized in Canyon a company of Scouts. The Scoutmaster is Mr. Garner, the pastor of the Episcopal Church here. He is an experienced Scoutmaster, wide awake and takes to the open like a jack rabbit. Some of the rest of us boys are going to help. That is, we will help as soon as we learn how.

"This move, if properly carried out, will go far toward solving the problems of boy-life, which must be solved if we would make of our boys, men prepared for the duties of life.

"Don't pass judgement before you have investigated. Let every parent go to some one of the churches on next Sunday morning where pastors and teachers and other who have studied the Scout movement will give a few minutes to explanation and answering questions relative to this matter.

"I have often hedged myself in and greatly hampered my freedom of action by making decisions before I knew enough about certain issues. I plead for our boys. They do not need their overflowing energies restricted so much as they need counsel and help and example and direction in giving full play to their vitality. Will it be better to direct them into worthwhile sports and team work and ideals, or let them work of

their must-be-employed energies in whatever way their inexperienced minds and immature judgments may devise.

"In the multitude of counsel there is wisdom". We are democratic people. A full, free, and frank discussion of every question is the one course that leads to a real healthy growth of right things. Let's look into this boy question and see if we can't do something for this young animal that needs to kick up his heels and scamper about to no small extent. At least let's see to it that when these romping, rearing, running,

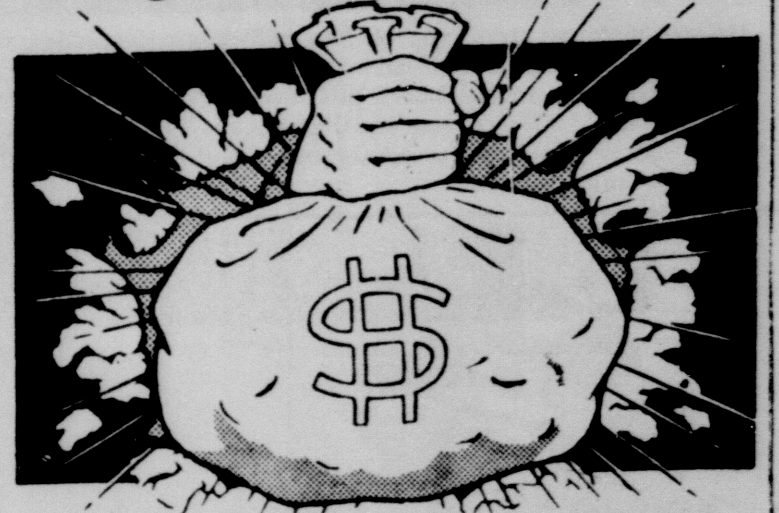

plunging energies begin to settle down to the serious race of life, the young fellows will be found out in the open running free-limbed toward the worthy goals of life. O my legs, how I wish I could be with them when they come in on the home stretch. But I can hope only for a short spurt by their side, and then to fall out and listen to the music of their pounding feet, with a hope of seeing the glorious finish, only be being caught up and borne forward by the spirit of Eternal Youth."

Spray Propazine to control weeds and grasses in sorghum.

One spray of Propazine 80W herbicide controls most annual broadleaf weeds and grasses in sorghum for the entire season.

This can reduce or even eliminate the need for cultivating because Propazine takes care of problem weeds for you. Propazine is particularly effective on carelessweed (pigweed) and annual morning glory.

Sprayed before weeds and sorghum are up and activated by moisture, Propazine gives your crop an entire season without weed competition for moisture and soil nutrients. The result? Higher yields and more profit for you.

Local Boy Scouts Leaders In Nation

Canyon and Happy Boy Scouts may well rank highest among scout units in the nation.

Llano Estacado Council, of which the local scouts units are a part, was given one of the highest honors in scouting at a regional meeting held in San Antonio during March.

Scouts in the nine-county council were named top ranking among 35 councils in Region 9.

The award, long coveted by local scouts, was based on work done by the council during 1964, under the leadership of Dr. James P. Cornette, who served as president of the council.

Llano Estacado Council has ranked second place in the region for the past three years, missing the first place berth by only one point each year.

Scout units from Canyon and Happy were named at the top of council ratings last December not only in overall ratings, but in percentage of membership growth, advancement in rank, long-term camp attendance and unit growth.

"Scouting in Canyon and Happy is at a high in achievement, not only in the council and region, but nationally," stated O. W. "Bud" Parker, Randall District chairman.

Randall district added a new Cub Scout pack, under the leadership of Lee Roy Moreland, and new Scout Troop, 197, with Newton Richardson as scoutmaster, to contribute to the overall total throughout the council of new units formed.
